## Acknowledgement

I have read the list of requirements expected of ISS listed guardians (Profile of a good guardian) and assure both parents and ISS that I am committed to meeting them and ensuring the safety, well being and success of the students placed in my charge.

I undertake to inform ISS in the event that I cease to be the student's guardian or if the student ceases to live in the same house as I do. I understand that the above expectations apply to guardians of all ISS students regardless of the students' age. I will wait till all documents are completed and approved before allowing the student/s to move out from my premises. I acknowledge the same procedure will apply to student/s seeking to move into my premises and appoint me as their guardian before it takes place and there will be an annual reviews and reconfirmation of my continued placement on the ISS list of guardians.

### **Please Note:**

**Although ISS makes every effort to ensure that relationships between students and guardians are successful, all parties are urged to clarify expectations before deciding on a guardian for their child. We suggest that parents discuss expectations in terms of frequency of contact, returning of deposits etc, but regret that we cannot be involved with disputes between parents and guardians. ISS has no financial relationship with guardians and does not accept payment from either parents or guardians for this service.**
